- Designed and developed an interactive Quiz Game using HTML, CSS, and JavaScript for a user-friendly.
- Implemented dynamic question rendering and score calculation to track user performance in real-time.
- Integrated responsive design principles to ensure compatibility across devices.

- **Fruit Quality Detection using Image Processing (Academic Project)**

- Implemented machine learning-based image processing to classify fruit quality.
- Used Python, OpenCV, and ML algorithms to detect ripeness and defects.

CERTIFICATES

- NPTEL Certification on Data Analytics With Python
- Internshala Certification on Programming with Python.
- Infosys certification on Introduction to ER modelling and Data modelling.
- Forge certification on Data Visualisation

ACHIEVEMENTS

- Successfully implemented an academic project on Fruit Quality Detection using Python, OpenCV, and ML algorithms to classify fruit ripeness and defects.
- Developed a Quiz Program demonstrating programming logic and problem-solving skills.
- Completed multiple certifications in Ybi, TCS Forge, Data Analytics, Python, ER Modelling, and Data Visualization.
- Consistently recognized for strong analytical and communication skills during academic and project work.
